

KEVIN REILLY COLLECTION

KEVIN REILLY COLLECTION INTRODUCES THREE NEW LIGHTING DESIGNS
February 12, 2018

For Spring 2018 designer Kevin Reilly is unveiling three new lamps. Each fixture is sculptural, creating a memorable ambiance and a sense of harmony.

The spectacular Topo channels a bit of childhood nostalgia for Reilly, reminiscent of a spinning top. As if suspended in motion, the Topo is dramatic and mesmerizing. A frosted glass cylinder perfectly diffuses the light while cradled within the geometric yet smooth lines of the steel frame.

Kevin Reilly is also offering a new ceiling mount with the versatile Rolle. Standard options include choice of aquarelle paper or frosted glass for the shade.

Guided by its predecessor, the Seva pendant, a wall version is being added to the collection. Furthering the dialogue between material and light, the Seva sconce is a focal point in any space.

All three handcrafted fixtures are available as indoor/outdoor lighting and clients can also customize for the perfect statement. For more information please visit: www.kevinreillycollection.com
